## NL4MPXX

This connector is fully compliant to the device standard IEC 62368-1, due to its component certification according to IEC 61984.

4 pole chassis connector, black D-size flange, countersunk thru holes, $3 / 16$ " flat tabs.

The speakON panel mount connectors are the standard chassis connectors for loudspeaker / amplifier interconnections. They feature a unique metal locking system, making contact only once fully locked. The speakON receptacles are robust, versatile and easy to terminate.

## Features \& Benefits

- IEC 61984 certified > IEC 62368-1 compliant
- Precise keyway for secure mating
- Metal insert in locking area
- Glass reinforced V-O materials make it extremely robust and dependable
- Accurate twist lock latching system
- Airtight design - optimized for speaker applications
