

opticalCON QUAD MED Chassis

Female chassis connector, black chromium plating, front panel mount, IP65 ingress protection in mated condition with SCDP-*.

The chassis connector acts as a "feed-through" allowing simplified installations by connecting four conventional LCs on the rear. It is built in the NEUTRIK standard D size shell and features an automatic sealing cover for maximum dust and dirt protection and a Push-Pull locking mechanism for safe connection.

Features & Benefits

- Suggested OEM equipment connector with common D-shape design
- Laser protected metal shutter seals dust proof with two-component rubber gasket
- IP65 ingress protection in mated condition with SCDP-*
- Suitable for medical Application like Operation Rooms (indoor)
- Rugged 4-channel Point-to-Point multichannel routing solution
- Accommodates standard LC connectors on the rear for cost effective and simple installations
- Designed as feedthrough for easy repair and replacement
